

CITY OF ST. CLOUD COMMERCIAL PRE-POWER FORM

PERMIT #: _____ DATE: _____

PROJECT NAME: _____

PROJECT ADDRESS: _____

DATES REQUESTED: FROM _____ TO _____

It is expressly understood that permanent electrical power is not normally connected to buildings until all construction has been completed, a Certificate of Occupancy has been issued and all fees paid to the City of St. Cloud. In consideration of receiving this temporary/pre power connection the following conditions will apply:

1. The connection of electrical power is solely to allow for the testing of connected electrical and mechanical equipment.
2. Nothing herein shall be construed as allowing the building's owner lessor or lessee to take possession of, or begin moving material, equipment, furnishings, or personnel, into the building.
3. Considering that the electrical system may not be complete enough to be adequately inspected, the General Contractor and the Electrical Contractor accepts full and complete responsibility for the safety and safeguarding of all electrical equipment and all the personnel.

We understand that this temporary connection may be terminated without notice if terms of this agreement are violated. The connection will not extend beyond the stated time period unless changed to a permanent status by issuance of a Certificate of Occupancy, or the Building Official grants an extension.
